technology.

The School of Civil and Environmental Engineering (CEE) is inviting applications for the position of Research Associate.

Key Responsibilities:

- Conduct research on thermoelectric properties of inorganic-based alkali-activated materials (AAMs) and its potential for thermal energy harvesting.

Job Requirements:

- Master in Engineering, Material Science or Chemistry.
- Strong academic standing with several publications in reputable journals.
- Good English speaking and writing skills.
- Strong references from previous supervisors.
- Previous experience in chemical synthesis and analysis, concrete sample preparation, mechanical testing and microstructural characterization (XRD, TGA, FTIR and SEM-EDX).
- Additional experience in pavement engineering and SHCC would be preferable, but not required.

We regret that only shortlisted candidates will be notified.
